

**Traffic and Weather reports that air “LIVE” on WGNS get your customers to your door quicker!**

Every morning and afternoon, WGNS broadcast the traffic situation in and around Rutherford County daily (M-F). WGNS has the announcer in the thick of it so that his headache does not become your customer’s headache (customer’s will thank you!).

In addition to traffic, WGNS also updates listeners on the weather daily and nightly! Your business will be in the spotlight with the WGNS traffic or weather reports!

**Your Commercial:**

At the end of each report your company will receive a :15-second commercial. WGNS can have the announcer read your message “LIVE” on the air OR it can be pre-recorded with a custom made commercial. If your commercial is read on the air by the announcer, it can be changed daily.

**Option A (Morning Drive Time):**
